### Introduction

Personal care homes are residential facilities serving four or more adults who need help with activities of daily living. Personal care services can range from simple daily living activities such as helping residents to obtain clean clothing, to more extensive assistance like help with bathing and dressing.

The Department of Human Services' Bureau of Human Services Licensing program protects the health, safety and well-being of more than 46,000 vulnerable adults who reside in personal care homes, through the enforcement of state licensing regulations. The Bureau of Human of Services Licensing also encourages the adoption of higher standards and recommends methods of improving care and services by providing technical assistance and consultation to personal care home operators. This report describes the characteristics of personal care homes and the needs of the individuals they serve, data on the number and types of inspections completed, the number of complaints investigated, enforcement actions taken, the provision of technical assistance to operators, and other methods used by the Bureau of Human Services Licensing to achieve its mission of protecting vulnerable people in licensed settings.

In this report, personal care homes are referred to as "PCHs," or "homes," the Department of Human Services is referred to as "Department," and the Bureau of Human Services Licensing is referred to as "BHSL." Unless otherwise noted, the information in this report covers the period of January 1, 2014 through December 31, 2014.

### **Executive Summary**

As of December 31, 2014, there were 1,221 licensed personal care homes in Pennsylvania. Of those, approximately 69 percent (840) were for-profit, and 31 percent (381) were non-profit.

The total personal care home capacity on any given day in 2014 was approximately 65,000, with the total number of persons served about 46,000. This constitutes an occupancy rate of about 71 percent. The average maximum capacity of a personal care home was 53.

Residents who are 60 years of age or older made up 88 percent of all people served in personal care homes. Residents who received the state Supplemental Security Income (SSI) personal care home supplement made up 15 percent of all people served in personal care homes. Of the total number of personal care homes, 54 percent served at least one person who received SSI.

BHSL completed 2,078 inspections in 2014. Nearly 40 percent of all homes had more than one inspection. A total of 9,115 regulatory violations were found during inspections, with an average of 9.66 violations found during each full licensing inspection.

The most commonly found violations included improper documentation of medication administration, improper annual assessment of resident(s), not following the prescriber's directions when administering medications, and incomplete medical evaluations.

In 2014, BHSL received 1,250 complaints and 25,144 incident reports. Approximately 82 percent of these complaints required an on-site investigation.

BHSL issued 90 enforcement actions, most of which were provisional (warning) licenses. One home was closed under an emergency removal order in response to an immediate life safety danger.

In 2014, BHSL assessed approximately \$319,000 in fines to homes that did not properly correct regulatory violations. In accordance with law, money collected through the fine process is placed in a special account used to relocate residents in homes closed by enforcement action. BHSL granted 108 regulatory waivers and denied nine waivers. The most common waiver request related to qualifications of direct-care staff (most due to staff holding a non-U S diploma).

In 2014, BHSL provided approximately 500 hours of free training to personal care home operators. In addition, BHSL awarded 20 full scholarships for the required 100-hour administrator-training course to personal care homes serving residents who receive SSI.

# **Characteristics of Pennsylvania**

#### Personal Care Homes and Residents Served

As of December 31, 2014, there were 1,221 personal care homes licensed in Pennsylvania, although new homes open and other homes close quite frequently.

Personal care homes vary in size. A PCH's maximum capacity is the highest number of people that can be legally served in the home and is indicated on the home's license. The smallest personal care home has a maximum capacity of four people. The largest personal care home has a maximum capacity of 250 people. The average maximum capacity of a personal care home is 53.

Just as personal care homes open and close throughout the year, the number of residents served in a particular PCH also changes based on discharges and admissions. Ongoing data on the number of people residing in personal care homes is not collected; however, the Department collects a snapshot of the number and type of people served during its annual inspections. The following information from December 2014 is representative of residents and their needs on any given day in calendar year 2014.

Maximum Capacity	Percent of Homes in Size Range	
9 or Fewer People	12.2%	
10 – 29 People	25.1%	
30 – 49 People	19.6%	
50 – 74 People	16.2%	
75 – 99 People	11.6%	
100 – 199 People	14.4%	
200 or Greater People	0.9%

Residents who received the state Supplemental Security Income (SSI) PCH supplement	6,881	14.8%
Residents who pay privately or who are funded through a source other than SSI supplement	39,666	85.3%

Note: Percentages may not sum to 100 percent as residents may fall into more than one category

Personal care homes are located in nearly every county in Pennsylvania. For county-specific information about the number and capacity of homes, please see Appendix A.

### Inspections

BHSL completes four basic types of licensing inspections. These include:

- Full Inspections, during which all regulations are measured.
- Indicator Inspections, during which a portion of the regulations are measured based on a history of regulatory compliance (see below).
- Partial Inspections, during which a portion of the regulations are measured in response to a complaint, a reported incident, or to monitor ongoing compliance.
- Initial Inspections, during which all of the regulations that can be measured are measured in a new home that does not yet residents.

BHSL is required by law to conduct at least one unannounced inspection of each of the Commonwealth's licensed personal care homes every 12 months. In 2014, BHSL completed 2,078 inspections. Approximately two percent of the homes had more than one full inspection, and 40 percent of all homes inspected had more than one inspection in 2014.

### Number of Inspections Completed

Type of Inspection	Number Completed
Full	738
Indicator	194
Partial	1,137
Initial	9
All Inspections	2,078

#### Percentage of Homes with One or More Inspections

Number of Inspections	Percentage
1 Inspection	59.7%
2 – 5 Inspections	37.5%
6 – 10 Inspections	2.7%
Over 10 Inspections	0.1%

#### Indicator Inspections

In July 2010, BHSL developed and implemented a licensing indicator system to increase the efficiency and effectiveness of the licensing program by refocusing the emphasis of the licensing process.

By using the licensing indicator system, less time is spent conducting license renewal inspections in personal care homes with a history of high regulatory compliance. This allows BHSL to spend more time providing technical assistance to and inspecting homes with a history of low regulatory compliance.

The licensing indicator system is a shortened version of the full inspection process. The licensing indicator system uses a tool designed to measure compliance with a small number of regulations determined through statistical methodology to predict compliance with all the regulations. If a home is in complete compliance with all the regulations measured in the licensing indicator tool, high compliance with all the regulations is statistically predicted.

A full inspection is automatically triggered if one or more violations of regulations are found during an indicator inspection.

In 2014, 237 homes were eligible for an indicator inspection. No violations were found during 64 percent of the indicator inspections; 36 percent of the indicator inspections did identify violations, triggering a full inspection.

# Violations

Personal care homes must comply with approximately 500 individual regulatory requirements. When noncompliance is found during a licensing inspection, a violation of the regulatory requirement is recorded. The table below shows the most frequently cited violations in calendar year 2014.

Total number of regulatory violations found (for all homes) = 9,115 Average number of violations found per home in full inspections = 9.66

### **Enforcement Actions**

Enforcement actions are taken in response to serious life safety conditions such as abuse of residents, criminal convictions, serious fire safety risks, resident neglect/abandonment, unsanitary conditions, falsification of documents, failure to seek necessary medical care, failure to provide staff supervision, lack of food or utilities, and building code violations.

Total Enforcement Actions	90 (average 7.5 per month)

For a complete list of enforcement actions by county and a glossary of enforcement terms, please see Appendix C.

## **Administrative Fines**

Since 2009, the Department has imposed an administrative fine process as an additional enforcement tool to compel regulatory compliance. Throughout 2014, the Department assessed a monetary fine for repeated regulatory violations that were not corrected in a timely manner by homes under licensing enforcement action.

Administrative fines are classified as Class I (requiring correction within 24 hours), Class II (requiring correction in five days), or Class III (requiring correction in 15 days). Homes were issued a warning that fines would be issued if violations were not corrected within the allowed timeframes Homes that did not correct violations were fined after the correction period ended.

In accordance with law, money collected through the fine process is placed in a special account used to relocate residents in homes closed by enforcement action.

# Waivers

Waivers of regulations may be granted by the Department when all of the following conditions are met:

- There is no jeopardy to the residents.
- An alternative for meeting the health and safety needs of the residents is provided.
- Residents benefit from the waiver.

### **Training and Technical Assistance**

BHSL is committed to the provision of training and technical assistance to personal care home operators to support the provision of safe, highly compliant residential settings.

BHSL staff provides on-site, one-on-one technical assistance to homes having difficulty complying with the regulations that primarily serve persons who receive SSI. BHSL also conducts Risk Management Team meetings with other federal, state, and local agencies to develop coordinated, intra-agency strategies to assist struggling homes.

BHSL also provides training for personal care home administrators and staff. All of the training provided directly by BHSL is offered free of charge, as is much of the training the BHSL arranges but does not provide directly. BHSL offered 126 training sessions totaling approximately 500 hours of free training at multiple locations throughout the state in 2014. Courses included "Protecting Residents from Financial Abuse," "Engaging, Motivating and Retaining Staff," "Ethics," "Fall Prevention and Support Planning," "Understanding Hoarding Behaviors," "Sexual Abuse Response," "Safe Management Techniques," "Wellness," "Ergonomics," "Diversity," "Food Safety," "Occupational Safety," "Fire Safety," "Skin Care," "Prevention of Dehydration and Malnutrition," "Infection Control," "Depression," "Dementia and Delirium," "Understanding Mental Illness," "Blood borne Pathogens," and "Diabetes Education."

Full scholarships for the required 100-hour administrator-training course are granted to personal care homes serving residents who receive SSI; 21 homes applied for and 20 received such scholarships in 2014. Additionally, a direct care staff-training course is available online at no cost to operators.

# Workload

In addition to a small component of management/support staff, BHSL currently employs 47 personal care home licensing inspectors who perform the inspection work described in this report. The volume and distribution of annual workload varies based on the number of licensing actions required, travel time, and the type of inspection required.

Region	Number of Inspectors	Number of Homes	Inspector to Home Workload Ratio
Central	11	281	1:26
Northeast	9	252	1:28
Southeast	7	208	1:30
West	20	480	1:24
Statewide	47	1,221	1:26

BHSL provides training per year to each licensing inspector training topics include inspection policies, PCH regulations, laws of other state agencies, investigation skills, financial administration, abuse prevention and investigation, fire safety, nutrition, program development, resident rights, elder care, mental health services, preventing the spread of communicable diseases, cultural awareness, and medication practices. A new licensing inspector receives over 120 hours of training in his/her first six months of employment. Initial training includes participation in the Department's medication administration program, attendance at administrator training courses, and on-the-job instruction.

#### Applications, Inspections, Enforcement, and Facility Information

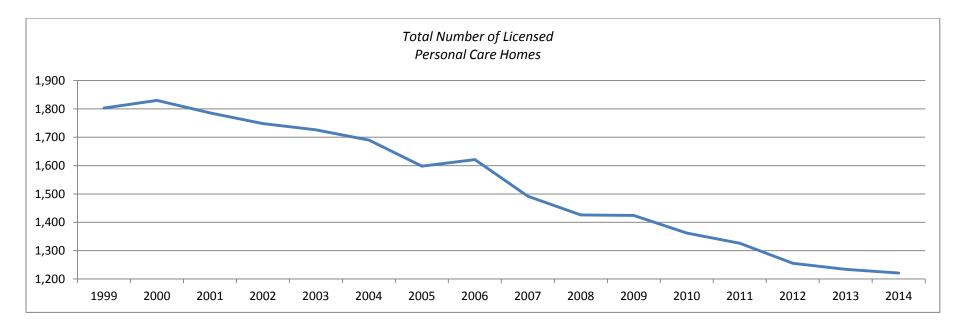

BHSL received 69 applications for licensure in the 2014 calendar year. Of those submitted 32 percent were applications for new homes, and 68 percent were applications for a new owner to operate an existing home. Most of the applications received by BHSL resulted in licensure.

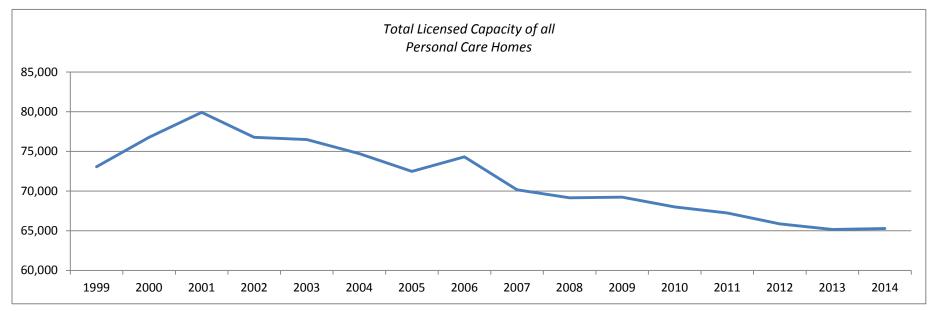

Application Status	Count Received in 2014	Percent
Denied	3	4.3%
Issued	50	72.5%
Still Pending	12	17.4%
Other (Not Needed or Withdrawn)	4	5.8%
TOTAL	69	100%

#### Applications Received, January 2008 through December 2014

The total number of personal care homes in Pennsylvania has been steadily declining. The tables below show the numbers of homes and total capacity between January 1999 and December 2014.

### Inspections

Since a peak in 2010, the number of personal care home inspections has seen a steady decline. This decrease is likely due to the decreasing number of homes, receipt of fewer complaints, and the provision of additional training.

Type of	Number Completed									
Inspections	2010	2011	2012	2013	2014					
Full	1,593	889	877	826	738

6-10 Inspections	2%	4%	4%	3%	3%					
Over 10 Inspections	1%	1%	1%	1%	1%					

Just as the number of inspections has decreased, the total and average numbers of violations has decreased as well.

Over 100 Violations	0%	0%	0%	0%	0%					

### Complaints and Enforcement Actions

The total number of complaints received against personal care homes has remained relatively consistent. However, more complaints required an on-site investigation, and more regulatory violations were found during complaint investigations. The total number of enforcement actions has decreased.

	2010	2011	2012	2013	2014
Number of Complaints Received	1,317	1,431	1,282	1,230	1,250
