					Home and Community Services	Direct service and services to meet regulatory requirements and/or contract conditions provided in home and community settings to assist individuals in acquiring, retaining, and improving self-help, socialization and adaptive skills. For the most part, these services differ only with respect to setting or regulatory requirements. This service can only be provided when the county program determines it will prevent institutionalization.	
					Rate Base and Modifiers	Modifiers enable services to be enriched through lower staff to individual ratios and program content. Individuals and families have increased program options from which to choose and levels of service are available to appropriately address individuals' health and safety needs and/or to achieve the purpose of the provision of the service.	
	Yes - Individual, No - Agency	Consolidated, PFDSW, Base			Home and Community Habilitation	This service may be made available to individuals in their own home or in other residential or community settings not subject to licensing regulations. Consolidated Waiver, Person Family Directed Support Waiver and Base Funded Services Definitions Narrative

General Comments

Consolidated Waiver and Person/Family Directed Support Waiver (P/FDSW) services are not available to persons from birth to their third birthday. Services funded by the waivers are also not available to individuals while they are living in public or private ICFs/MR, nursing homes, assisted living facilities, residential treatment facilities, correctional facilities, or drug and alcohol facilities.

The cost of P/FDSW services provided to any individual may not exceed the funding cap established in the current waiver or waiver as amended. There is no similar cap associated with the Consolidated Waiver.

The residential services, which include Child Residential Services, Community Residential Rehabilitation Services for the Mentally Ill, Community Homes for Individuals with Mental Retardation, Family Living Homes, and Residential Home and Community Habilitation Unlicensed Homes, are **only** available through the Consolidated Waiver.

None of the services discussed in this document may be provided to individuals in their residences if the residences are provider owned, leased, or rented and serve more than ten people. Services may not be provided to individuals who live in licensed residential settings established prior to January 1, 1996 that are homes to more than ten unrelated individuals or in homes established on or after January 1, 1996 that are homes to more than four unrelated individuals. Services may be provided to individuals who reside in converted ICFs/MR of ten beds or less.

The need for services must be established through assessment processes and be documented in Individual Support Plans (ISPs).

In recognition of requirements to ensure individuals' health and welfare, to enable the achievement of the purpose of the provision of the service, to individualize services, and to account for differences in service delivery regulations and/or methods specific to different service settings, some of the services have unique sets of modifiers. The modifiers consist of multiple levels of staff to individual support ratios or support by staff that have had special training and/or experience.

While providing a framework through which the health and safety needs of individuals can be ensured and outcomes can be achieved, modified services also provide options to individuals and families who may choose enriched and/or more creative programs made possible through lower staff to individual ratios.

Family members may provide services funded through the waivers when qualified on a service-by-service basis and when the following conditions are met.

Person/Family Directed Support Waiver:

- In the case of providers who are family members, federal and state financial participation is excluded when the provider is a parent of a minor child (under the age of 18) or the provider is a spouse.
- The service provided is not a function which the spouse or parent would normally provide for the individual without charge as a matter of course in the usual relationship among members of a nuclear family.
- The service would otherwise need to be provided by a qualified provider.
- A qualified provider who is not a family member is either not available to provide the service or can only provide the service at an extraordinarily higher cost than the fee or charge negotiated with the qualified family member.

Consolidated Waiver:

- The service is not a function that a relative would normally provide for the individual without charge as a matter of course in the usual relationship among members of the nuclear family.
- The service would otherwise need to be provided by a qualified provider of services funded under the waiver.
- The service is provided by a relative who meets the same qualifications that are currently established for other non-licensed providers of services by the Department.

Home and Community Services

These services are for individuals who need assistance in the acquisition, retention, or improvement of skills related to living and working in the community.

A service that is included in another category of services, for example, Occupational Therapy, may not be provided as a Home and Community service and/or included in the rate charged for a Home and Community Service. The exception to this rule is in transportation services. When providers of Residential Home and Community Habilitation Licensed Homes and Residential Home and Community Habilitation Unlicensed Homes transport individuals to activities in accordance with their plans, the costs of transportation are included in the residential rates. The only transportation cost that may be included in the rate for services such as Pre-Vocational Services and Transitional Work Services is the cost of transportation that is necessary for involving individuals in activities that are an integral part of these services. An example is transportation that originates from a provider site to a community activity or function that is part of the overall program of activities of the provider.

Home and Community Habilitation

This is a direct service that must meet contractual conditions. This service is provided in home and community settings to assist individuals in acquiring, maintaining, and improving self-help, domestic, socialization and adaptive skills.

This service is not a residential service. For residential services, see Residential Home and Community Habilitation Licensed Homes and Residential Home and Community Habilitation Unlicensed Homes.

Home and Community Habilitation, however, is a service that may be provided to individuals in their homes when they live in residential settings serving 10 or fewer persons. These settings include Personal Care Homes and Domiciliary Care Homes. This service also may be provided to individuals in their own homes or the homes of family members with whom they may be living.

Through the provision of this service individuals learn, maintain or improve skills through their participation in a variety of everyday life activities of interest to them. They learn and use skills in the context of these activities, a functional approach to the delivery of services. These activities must be necessary for individuals to live in the community, to live more independently, or to be more productive and participatory in community life. Services must be provided in a manner that ensures individuals' health and welfare.

In addition to supporting individuals in activities typically associated with those occurring in their homes and the immediate community, the Home and Community Habilitation service may also be used to provide staff assistance to support individuals in the following ways:

- To participate in generic community programs or activities such as those offered by senior centers or YMCAs. There is, however, no entitlement to the purchase of memberships or admission passes to clubs, organizations, or parks.
- To participate in community projects, associations, groups, and functions, such as support that assists an individual to participate in a volunteer association, a community work project, or on public and private boards or advisory groups.
- To acquire assistance related to maintaining a household residence such as assistance in financial planning, managing home responsibilities and making timely payment of bills. This is not financial support for room or board expenses.
- To exercise rights as a citizen such as voting in elections.
- To learn parenting skills.
- To be financially self-sufficient such as assistance in personal and estate planning, preparing income taxes and record keeping.
- Indirectly through the development of self-sustaining functional support networks of family, friends and associates. This service is to enable individuals to access and use the resources of their local communities with the support of individuals other than paid staff.

There may be multiple uses of this service with multiple providers within any individual's plan as long as there is documented need and there is no conflict in regards to day and/or time. An individual, for example, may participate in activities that are community based to satisfy an outcome for an individual's independent use of generic services, a Home and Community Habilitation service, provided from 6:00 PM to 9:00 PM, Monday through Friday. The same individual could also be provided with a Home and Community Habilitation service that is home-based, scheduled Monday through Friday from 11:30 AM to 12:30 PM to support him/her in achieving an outcome of independent meal preparation.

This service should be coordinated with any service/s that may be provided in the Specialized Therapies and Related Clinical Services category to ensure consistency in services to individuals across service settings.

This service allows for standard of a contiguous state with written regional approval.

The rate base and modifiers for Home and Community Habilitation follow:

Pre-Vocational Service (Title 55, Chapter 2390, Vocational Facilities)

This is a direct service that must meet contractual conditions and the regulatory requirements of the Pennsylvania Code, Title 55, Public Welfare, Chapter 2390, Vocational Facilities. This service is provided to individuals to prepare them for paid employment.

Individuals are taught concepts such as task completion, safety, problem solving, following direction and dependability. The service is not provided to teach skills required of a particular job task; instead, a variety of job tasks of interest to individuals are used to train appropriate work traits.

This service may not be funded through either waiver if it is available to individuals under a program funded under section 110 of the Rehabilitation Act of 1973 or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401 (16 and 17)).

Employment Services

Competitive employment refers to paid employment in the public or private sector in integrated settings whereby individuals receive at least minimum wage, but generally the prevailing wage of co-workers performing the same job with comparable experience or expertise. Individuals are also entitled to the benefits, training and personnel related experiences as co-workers within the company performing comparable work.

There are two services in this service category. The services are Job Finding and Job Support. These services support individuals in obtaining and maintaining integrated, competitive employment.

These services may not be funded through either waiver if they are available to individuals under a program funded under section 110 of the Rehabilitation Act of 1973 or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401 (16 and 17)).

FFP will not be claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

- Incentive payments made to an employer to encourage or subsidize the employer's participation in employment.
- Payments that are passed through to users of employment programs.
- Payment for training that is not directly related to an individual's employment.

The Pennsylvania Code, Title 49, Professional & Vocational Standards, Department of State, Chapter 21, State Board of Nursing provides the following service definition:

“Practice of professional nursing – Diagnosing and treating human responses to actual or potential health problems through such service as case finding, health teaching, health counseling, provision of care supportive to or restorative of life and well-being, and executing medical regimens as prescribed by a licensed physician or dentist. The term does not include acts of medical diagnosis or prescription of medical, therapeutic or corrective measures, except as may be authorized by rules and regulations jointly promulgated by the State Board of Medicine and the Board, which rules and regulations will be implemented by the Board.”

Behavior Therapy

The treatment, by psychological means, of the problem of an emotional nature in which a trained person deliberately establishes a professional relationship with an individual, in an attempt to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior, and promote positive personality growth and development.

Visual/Mobility Therapy

The rate base and modifiers for Visual and Mobility Therapy follow:

W7246	Visual/Mobility Therapy	Evaluation and consultation for individuals who are blind or have visual impairments.	15 minutes
-------	--------------------------------	---	------------

This therapy is for individuals who are blind or have visual impairments. The provision of therapy is for the purpose of increasing individuals' travel skills and/or access to items used in activities of daily living.

This service may include evaluation and assessment of individuals and the environments in which they interact, direct service to individuals, and training of support individuals. The provision of this service may result in recommendations for adapting environments or purchasing adaptive appliances.

Respite Services

Respite services are for the temporary relief of the person/s normally responsible for the care and supervision of individuals in service. These services are not to replace the responsibility of members of the nuclear family to provide care and supervision that would normally occur in a family situation.

When there is an ongoing and regular need for the relief of caregivers, the more appropriate service is Home and Community Habilitation where there is the expectation that individuals will receive a service that is of greater benefit to them than basic care and supervision.

These services are limited to individuals residing in their own homes or in the homes of family, friends, companions, foster homes or domiciliary homes.

Twenty four hour respite is limited to four weeks per fiscal year. Respite that is less than 24 hours is limited to a recommended maximum of four times per month but may be adjusted by the County MH/MR Office based on individual need. The Regional Offices in accordance with Title 55, Chapter 6350, Family Resource Services, Section 6350.16, Waiver option may approve waivers of these limitations on an individual basis. These limitations also apply to the respite services that are provided in camp settings that are included in the Other Services category.

Respite may not be provided in Nursing Homes, Hospitals, or ICFs/MR.

There are two services included in this category of service. The services are Respite In-Home and Respite Out-Of-Home. Within each of the services, there are three service units. One service unit is 24 hours, the second service unit is 1 hour and the final service is 15 minutes. If an individual uses less than 24 consecutive hours of respite, the appropriate service is either one hour or 15 minutes. When an individual

uses 24 or more consecutive hours of respite, the appropriate service would be a service with a 24-hour unit for each consecutive 24-hour period and the appropriate service with a one-hour or a 15 minute unit for any amount in excess of 24 hours or multiples of 24 hours.

Respite In-Home – 24 Hours

Transportation Service

This service is the provision of transportation for individuals to enable them to access services, activities, or supports in accordance with their individual support plans (ISPs).

This includes transportation that is provided by Adult Training Facilities, Pre-Vocational Service and Transitional Work Service providers who transport individuals to and from their homes and provider sites. It is **not** transportation that is an integral part of the provision of activities within these service settings nor is it transportation associated with residential services. In both of these cases, costs of transportation are included in the rates charged for the specific service.

This is a service that may also be provided by family members, friends, and others not affiliated with a provider agency.

Transportation – Mile

The rate base and modifiers for Transportation (Mile) follow:

W7271	Transportation (Mile)	Transportation by family, friends, or others not affiliated with a provider agency. Environmental Accessibility Adaptations

This service is provided to improve individuals' independence in activities of daily living in their homes and communities and/or to make possible their continued care and support in their homes or the homes of family members.

This is made possible through physical adaptations to individuals'/families' private properties and vehicles. The adaptations provide for safe and independent or assisted access to homes and rooms within homes, for the safe and functional use of furnishings and appliances within homes, and/or to facilitate individuals' involvement in activities of daily living or other activities in accordance with their ISPs.

Physical adaptations may consist of installation, repair, and when necessary to comply with rental or lease agreements, return of properties to their original condition.

Maximum state and federal funding is limited to \$20,000 per household, which includes adaptations to any personal vehicles used by the person/family residing in the household. If the individual moves, a new \$20,000 limit is set

Physical adaptations to vehicles are limited to the following:

- Vehicular lifts.
- Interior alterations of seats, for proper positioning and safety of the individual.
- Other customized devices necessary for the safe transportation of the individual.

All adaptations to the household shall be provided in accordance with applicable building codes.

Homemaker/Chore

This is an indirect service to individuals and is the provision of general household activities such as meal preparation and routine house cleaning. More extensive services are also included when those services are necessary to maintain the home in a clean, sanitary and safe condition. More extensive duties include washing floors, walls, and windows; repairs such as tacking down rugs or loose tiles; moving heavy furniture to ensure safe access and egress; and yard maintenance.

This service may only be provided when persons regularly responsible for these activities are temporarily absent or unable to manage the home and care for themselves or others in the home, or where neither the service recipient or anyone else in the household is capable of performing or financially providing for the service and where no other relative, caregiver, landlord, community/volunteer agency, or third party payer is capable of, or responsible for, the provision of the service. In the case of rental property, the responsibility of the landlord, pursuant to the lease agreement, will be examined prior to authorization of service.

The initial duration of this service is limited to one month. A mandatory two week interval must be observed for evaluation purposes prior to any extension of this service. After six weeks, additional criteria must be met to extend the service. An extension requires the County MH/MR Office to document the lack of feasibility of other alternatives. Specific goals must be determined and reasonable time limits to meet them must be established. Consolidated Waiver funding for this service may not exceed \$2000 per fiscal year. There is no funding cap on this service in the P/FDSW.
